MAKE MOMENTS MATTER

Founded with entrepreneurial flair in 1947 by Fred Stauder Snr and passed down to his son in 1980, Dollar Sweets has a long history as a fiercely innovative, competitive and privately owned Australian family business.

After a brief period of ownership by the Arnott's Group, the business was eventually purchased by the Higgins Family in 2003. Since then, it has experienced significant growth; driven by innovation, speed to market and the development of customer relationships that are second to none.

Befitting the family business heritage, Managing Director Miranda Higgins and Sales Director Philip Holm oversee the day-to-day operations. Both come with more than 20 years' experience working in the Australian grocery and food service industries.

Working closely with a team dedicated and passionate about establishing the Dollar Sweets name as synonymous with creative and quality confectionery and cake decorating products, Dollar Sweets continues to use its market-leading position to successfully launch exciting and unique products both in Australia and around the world.

SPECIFICALLY TAILORED INGREDIENT SOLUTIONS

Dollar Sweets has many years' experience working closely with large industrial businesses in the baking, confectionery and ice cream industries to specifically tailor ingredient solutions.

The Dollar Sweets factory consists of a purpose-built plant located in Pakenham, one hours drive from the CBD of Melbourne, Victoria. The plant is ideally located next to major arterial highways connecting it to land, sea and air transporation.

Dollar Sweets production and packing line in Pakenham.

The factory is HACCP and SQF Accredited and has ample capacity to develop individual ranges of confectionery and cake toppings to assist businesses in the retail, food service and industrial markets in Australia and New Zealand. In addition, we have RSPO, Halal and Kosher Certification for certain products.

Apart from our established Dollar Sweets and Creative Kitchen brands, we also have the capacity to manufacture house brands, or own branded retail products. Large pack sizes are available for food services, as well as bulk industrial products for companies wishing to value-add to their own manufacturing process. If you have a particular product need, please contact our team to discuss.
